da Vinci Mini

Introducing our most affordable and compact 3D printer to date, the da Vinci Mini promises to bring the Maker Revolution to the masses. Perfect for hobbyists and use around the home, it's sure to become a firm family favourite!

All the punch without the size

Thirty per cent smaller and lighter than the da Vinci Junior range, the da Vinci Mini is portable and modest, sitting comfortably in the corner of your desk while retaining the same build size at 5.9" x 5.9" x 5.9" and the same print quality as its predecessors.

The da Vinci Mini also comes with an optional protective case to ensure the printing area is safe for small hands.

Easy as 1, 2, 3

With a simplified interface, the da Vinci Mini starts printing from just the push of a button. You can monitor your print's progression through an LED traffic light system, with red signalling an error, orange a pause or resumption, and green showing a project is ready to go or complete.

As with the rest of XYZprinting's da Vinci range, the Mini also comes calibrated and automatically adjusts during prints.

Stay connected

There's no need to fiddle around with wires and cables to print – the da Vinci Mini has integrated Wi-Fi capabilities, allowing you to send designs straight from your device or even the XYZprinting app.

SPECIFICATIONS

Printing Spec.	Description
Technology	FFF (Fused Filament Fabrication)
Maximum Printing Area (WxDxH)	5.9 " x 5.9 " x 5.9 " / 15 x 15 x 15 cm
Resolution	0.1mm~0.4mm (100 microns~400 microns)
Print Head	Single Nozzle
Filament Auto-Feeder	Yes
Printer Bed	Non-Heated
Nozzle Diameter	0.4mm
Filament Diameter	1.75mm
Printing Material	PLA
Dimension	
Dimension(WxDxH)	15.7" x 13.2" x 14.2" / 40 x 33.6 x 36.2 cm
Weight	17.6 lbs / 8 kg
Display	
Language	Multi language
Connectivity	USB 2.0/ WIFI
Software	
Printing /File Types	XYZware /.stl /XYZ Format(.3w,.nkg)/Windows(. 3mf)
Operating System	Windows 7 and above / Mac OS X 10.8 and above
Hardware	
Hardware Requirements	32 / 64-bit compatible PCs with 4GB+ DRAM (for PC) 64-bit compatible Macs with 4GB+ DRAM (for Mac)
